

CLEAN... ...or not so clean.

THAT IS THE QUESTION.

oct 25th

INTERNATIONAL WORKSHOP ON SHIPS' WASTE
ORGANISED BY EUROSHORE INTERNATIONAL, ESPO AND ECSA.
THE WORKSHOP WILL BE HELD IN ANTWERP.

VENUE: "DE ARK" NEXT TO THE WELL KNOWN RESTAURANT "HET POMPHUIS".

The workshop will deal with the newest developments in technology and types of waste: waste from scrubber installations which are used to meet the strict emission rules in the Baltic sea and the North sea, ballastwater and cargo residues as well as a performant monitoring system for tracking and tracing vessels in European waters.

- 09.00 Welcome
- 09.10 Introduction to the legal framework for waste from scrubber installations and ballastwater by a representative of EMSA.
- 09.30 Scrubbersystems and their impact on waste production by Rene Diks of Alfa Laval.
- 09.50 Ballastwater issues update by a representative of IMO.
- 10.10 Best practice in the field of liquid cargo residues by a representative of Stolt tankers.
- 10.30 Best practice in the field of dry cargo residues by Yves Gillis of Arcelor Mittal in Gent.

• Coffee break

- 11.20 An integrated approach for ships' waste: the Antwerp port authority model.
- 11.45 The European safe sea net: an EU System for the monitoring of notification and disposal of waste from sea going vessels by a representative of EMSA.

• Questions and answers

- 12.30 Lunch break.
- 14.00 A port reception facility seen from the perspective of a shipowner. European shipowner (invited).
- 14.20 An exchange of views on the implementation of the EU-directive 2000/59/EC.

• Discussion with representatives of ESPO, ECSA, ngo's and Euroshore.

- 15.00 The view of the EU Commission on the way forward with the review of the EU-directive on ship generated waste and cargo residues by the EU Commission.
- 15.45 Conclusion

• Reception

CLEAN... ...or not so clean. THAT IS THE QUESTION.
