**LES RENCONTRES AIVP**

ETRE COMPETITIF AVEC L'ANIMATION VILLE-PORT

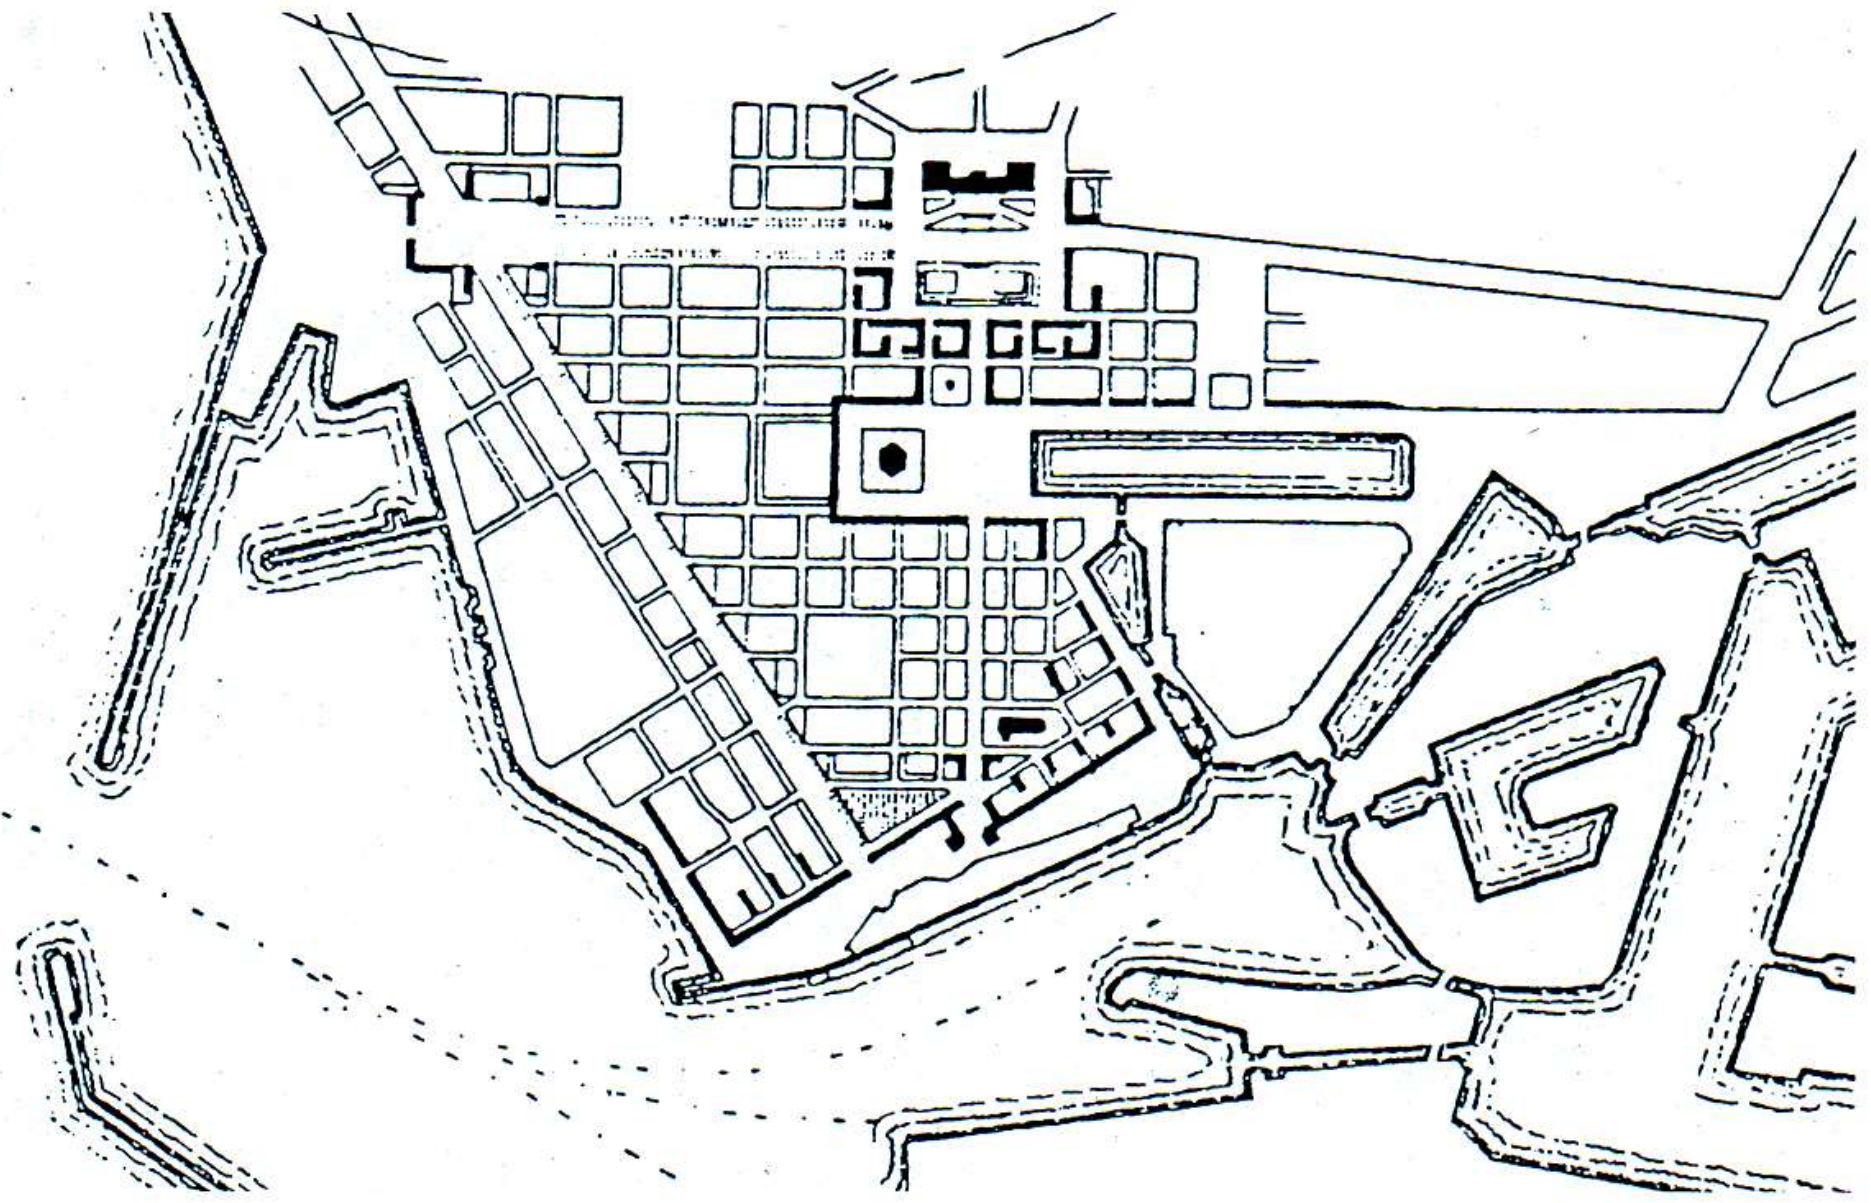

**MICHEL DESVIGNE PAYSAGISTE**

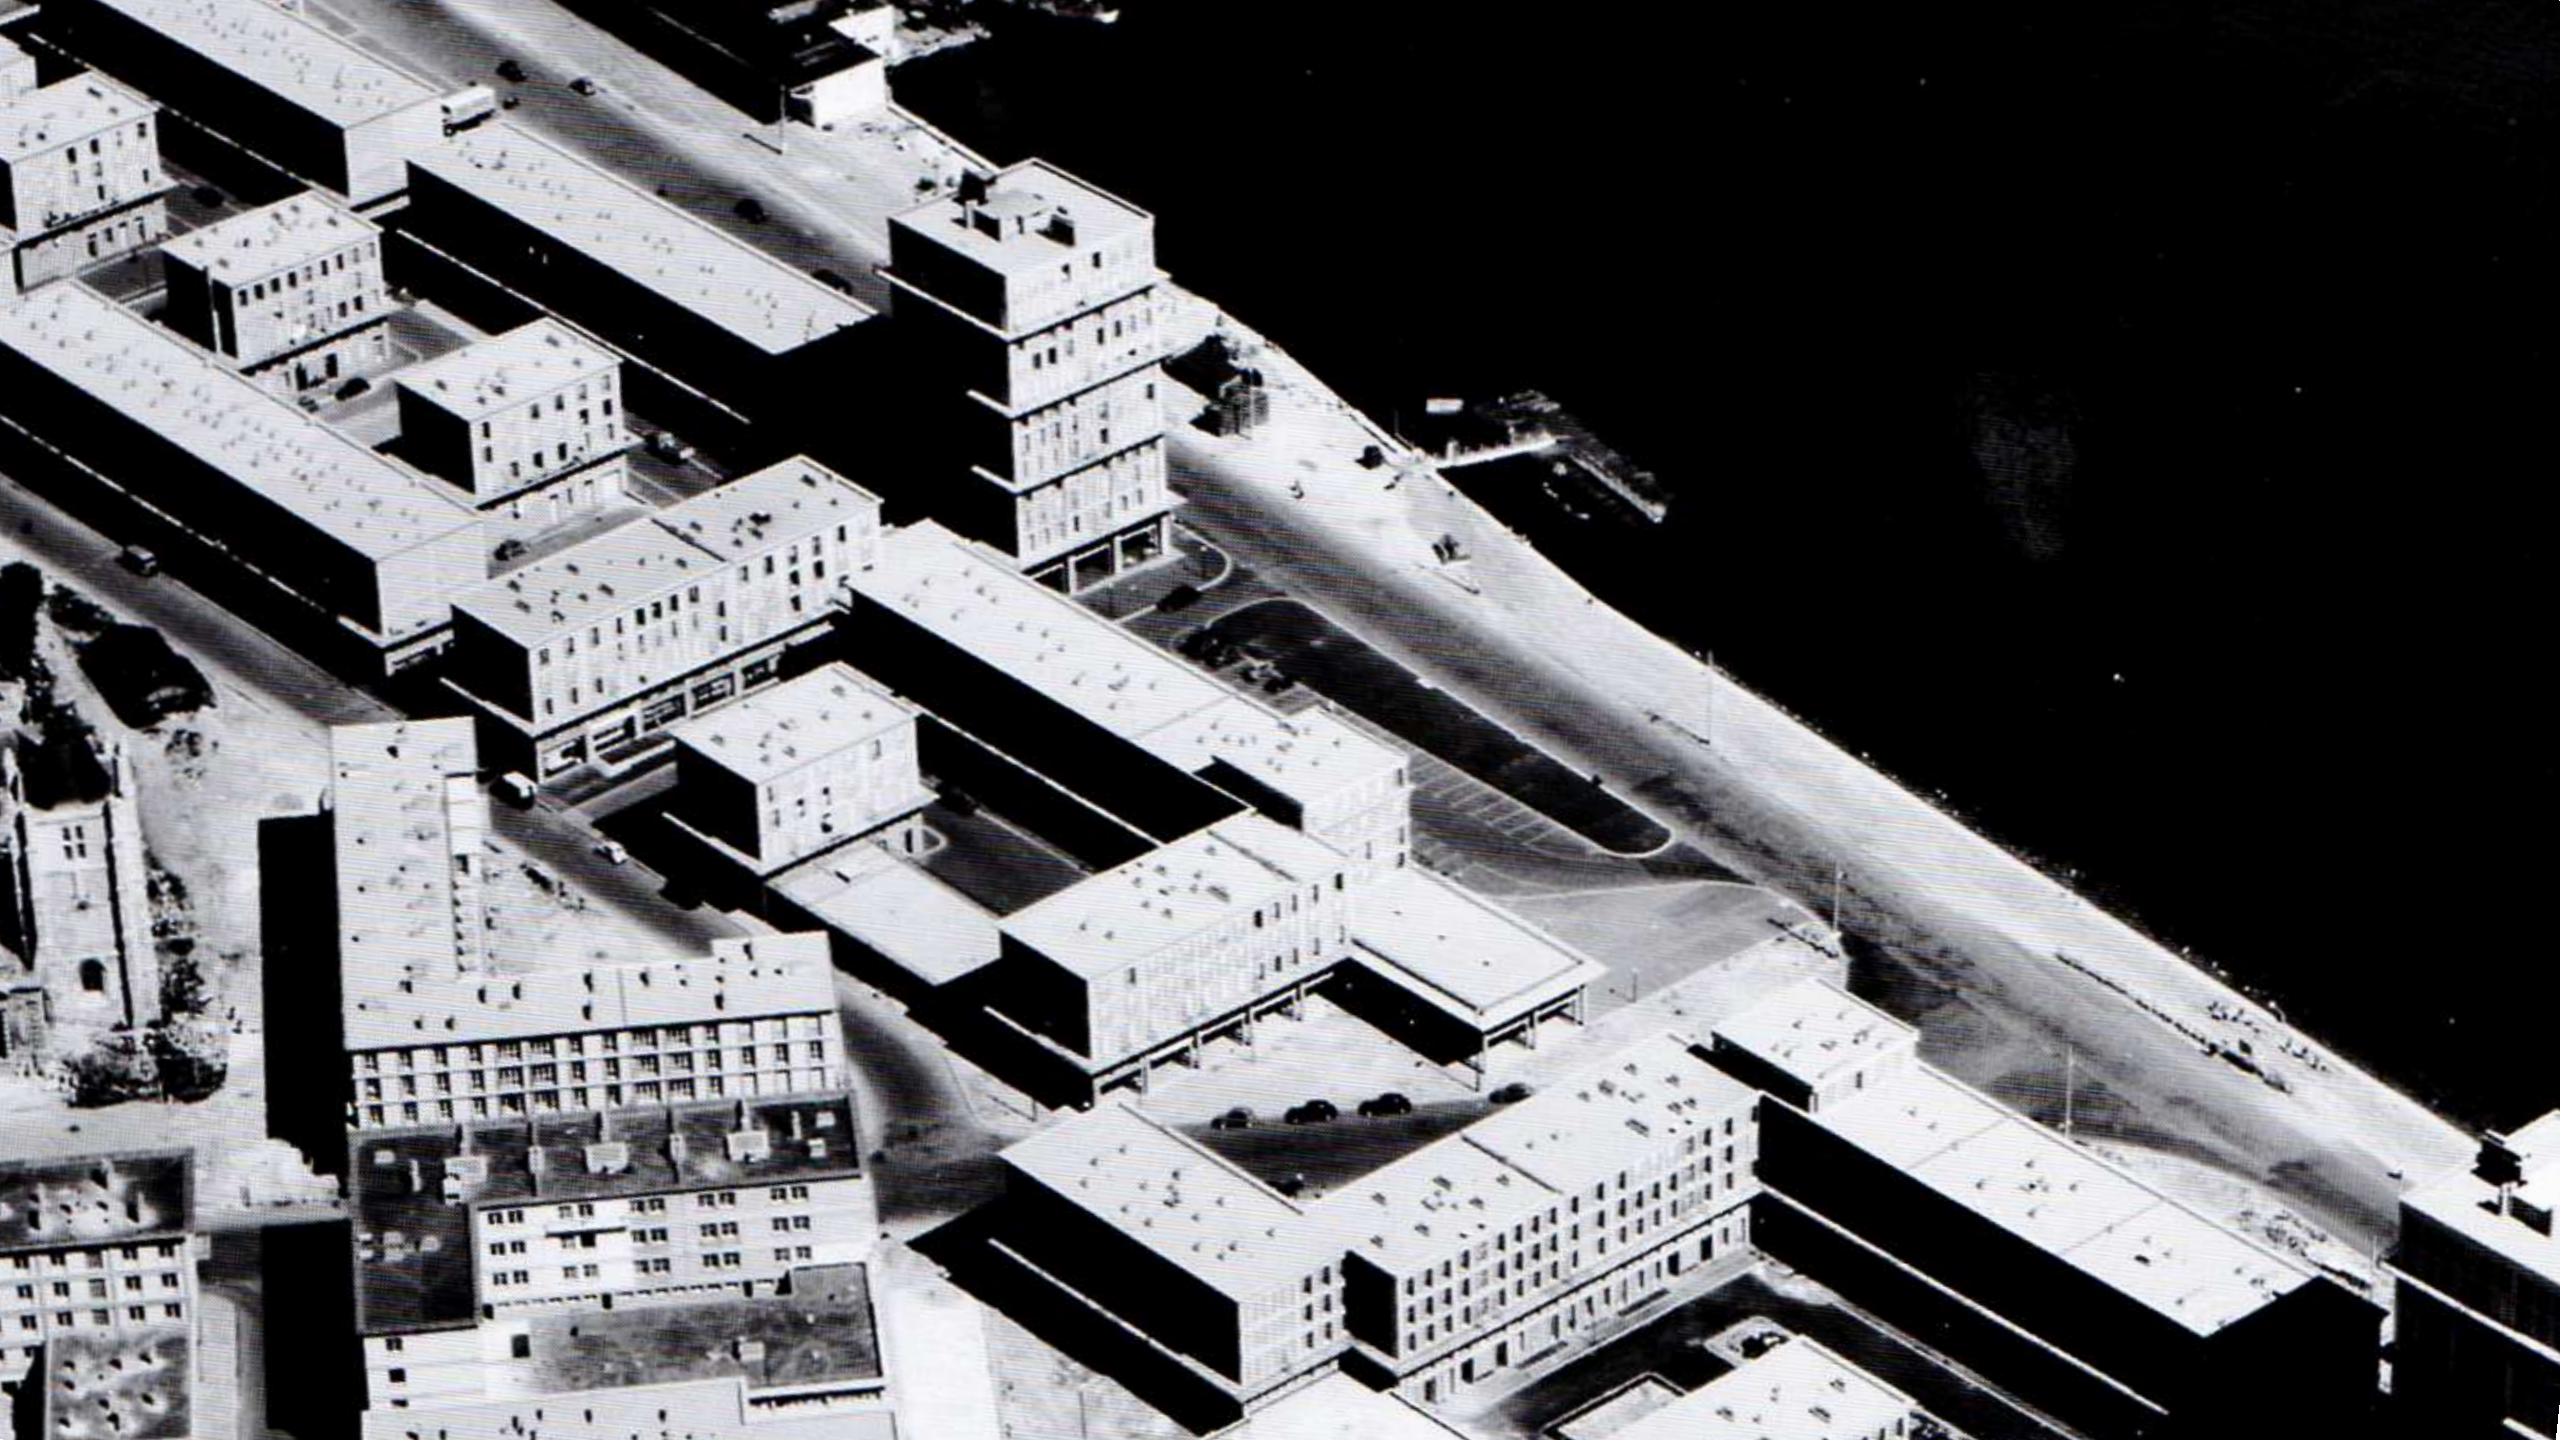

**INESSA HANSCH ARCHITECTE**

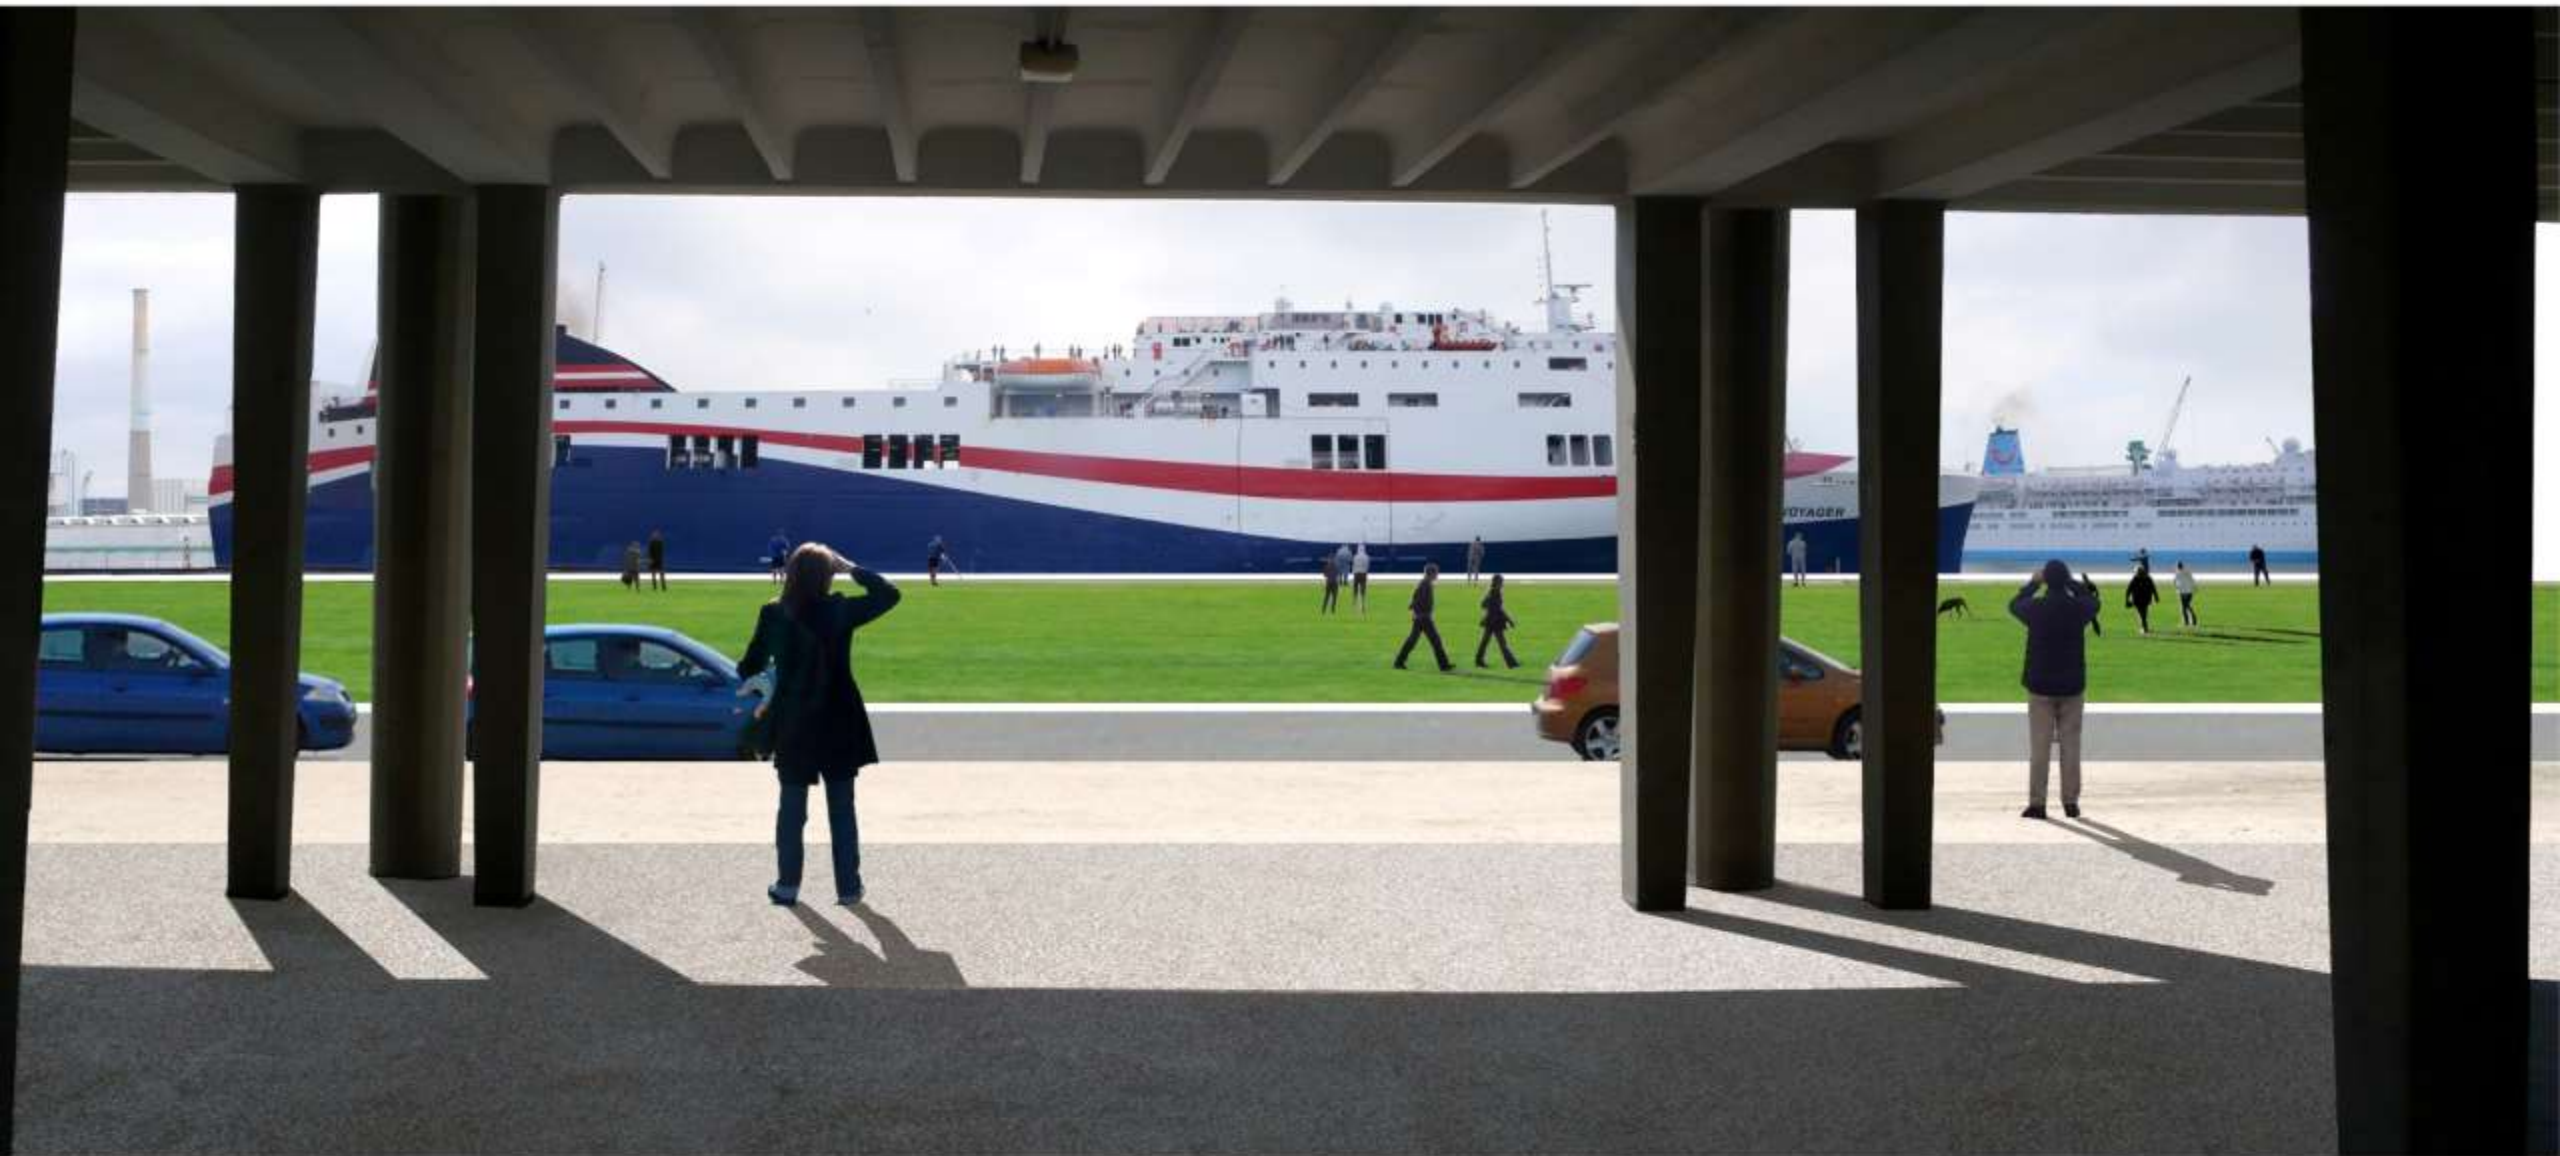

1. The model shows a dense urban grid with various building footprints, courtyards, and streets. The model is semi-transparent, allowing the real city's features to be seen through it. The river is dark, and the bridge is a prominent structure crossing it. A boat is visible on the river. The overall scene is a comparison between a proposed urban plan and the existing city.
