

‘Intelligent Exchange’

– data exchange for smooth maritime and logistics processes

**The annual conference of the
European Port Community Systems Association**

4th June 2014, Civitavecchia, Port of Rome, Italy

The transport of goods in the 21st century relies on the efficient exchange of data for both administrative and operational processes to provide a seamless integration between all modes of transport.

EPCSA’s annual conference, hosted by the Port Authority of Civitavecchia, Italy, on 4th June 2014, will provide a platform for explaining and discussing the latest policy and operational issues relating to the efficient exchange of information within the maritime and logistics supply chain.

Leading European and international experts will consider topics including:

- Directive 2010/65 on Ships’ Reporting Formalities
- eCustoms
- Supply chain transparency

Alan Long, Chairman

Invitation for Drinks and Networking

About EPCSA

EPCSA was formed in June 2011 by six of the leading European Port Community Systems Operators to represent the interests of the Port Community Systems Operators in Europe. It was formed by SOGET, Le Havre, France; MCP, Felixstowe, UK; Portic, Barcelona, Spain; Portbase, Rotterdam and Amsterdam, Netherlands, dbh, Bremen, Germany and DAKOSY, Germany.

Members of EPCSA now operate in ports that handle in excess of 80m TEUs and 2bn tonnes of cargo. This accounts for in excess of 60% of all EU seaport throughput.

EPCSA now has 21 members, 18 from within the EU and one from Ukraine, Israel and Australia. Though a European Association EPCSA has a global with many of its members operating in ports outside Europe include Indonesia and Morocco as just two examples.

Membership of EPCSA is open to Port Community System Operators and Port Authorities. For further information on EPCSA please contact Richard Morton, SecretaryGeneral, richard.morton@epcsa.eu or 0044 7796334960 or visit www.epcsa.eu.
