**June 4 – 7, 2013  
Messe München**

THE LEADING EXHIBITION

## The world of logistics under a single roof Concrete solutions for you

### Experience what moves the industry

Upcoming new markets around the world need efficient logistics solutions that preserve resources: In the future, the conflict between economy and ecology will call for large numbers of **novel concepts and technologies**.

Many of them can already be seen at **transport logistic**. The **world's leading exhibition for logistics, mobility, IT and supply-chain management** is the hub for challenges and solutions—which makes it a source of impetus for the international logistics industry.

You can profit from the fact that the **entire value chain** will be represented in the form of **market leaders from around the world**. Find out more about the latest trends in the first-rate **program of related events** that apply to all countries. Take advantage of this business platform to make contacts and pave the way for new business.

**Be there — at transport logistic 2013.**

**Save valuable time and money when you get to the fair: with the online ticket.**

THE LEADING EXHIBITION

## Always on the move: transport logistic. Innovations that move you forward

### Two strong partners—Your gain

Hall B1 will revolve entirely around **intra-logistics**: For the first time ever, the two leading exhibitions **CeMAT** and **transport logistic** are bundling their strengths.

### You'll be inspired by FUTURE FRIDAY

Globalization and intelligent urbanization are topics that will engage the logistics industry during the next few years. What are the consequences for the industry? FUTURE FRIDAY will give you impetus, prospects and answers.

### Move your career forward

Prepare the next steps in your career. The “Career Market” in Hall A6 and the “Future Professionals and Careers” initiative on June 7, 2013 are the perfect opportunity to do so. Additional information and a service for setting up personal appointments are available here: **[www.transportlogistic.de/careers](http://www.transportlogistic.de/careers)**

### Experience the exhibition's focal points

- » Services, freight transport and logistics
- » Intralogistics, warehouse management systems, auto ID, packaging
- » Freight-transport systems
- » IT/telematics, e-business, telecommunications
- » Research and development
