

18th International Maritime Exhibition **BALTEXPO - 2015**

**September 1 - 3, 2015,
Gdańsk, Poland**

BALTEXPO

is the biggest and most renowned exhibition of maritime technology, services and solutions in Poland and one of the major maritime events in Central-Eastern Europe. It matches different stakeholders of maritime economy and helps them grow their businesses primarily due to the accessibility of comprehensive information on the prospective development of this sector, modern exhibition formula facilitating business relationships and conferences gathering top-level decision makers and managers.

AT BALTEXPO 2015:

I. SHIPBUILDING INDUSTRY

- Building, re-building, repairs and modernization of all vessels (sea, river and yacht shipyards)
- Shipyards' and cooperating companies' offer for the Polish Navy and sea borders' protection services
- Cooperation services and ship outfitting with the following:
 - power units,
 - gear transmission systems, turbines,
 - deck equipment,
 - radio and navigation equipment, steering and control systems, ship installations,
 - vessel automatic and hydraulic systems,
 - vessel interior design, furniture, woodwork and upholstery,
 - vessel surface finish (paints, varnishes, anti-corrosion materials)
- Shipyards' offer for civil engineering
- Designers and design service market
- Software for vessel and shipyard designers
- Shipyard outfitting

II. OFFSHORE

- Services for undersea oil and gas exploration
- Drilling, mining, operating, supplementary and accommodation platforms - equipment and services
- Support and specialized vessels - services and maintenance
- Seaborne renewable energy - wind and water resources
- Installation of undersea cables and pipelines

III. PORT AND TERMINAL FACILITIES

- Investment plans
- Complex realization of investment projects
- Hydrotechnical and engineering construction
- Port outfitting
- Embarkation and disembarkation equipment
- Handling and maintenance of port infrastructure
- Port safety and security systems

IV. MARITIME TRANSPORT AND LOGISTICS

- Port facilities and services
- Warehousing and logistic centers (depositing, storage, transportation)
- Bulk terminals
- Container terminals
- Liquid fuel and gas terminals
- Marine and inland intermodal transport
- TEN-T transport corridors
- Logistics and shipping
- Logistics and transport safety (containers, cargo security)
- Shipping companies
- Cargo handlers and shippers
- Port reloading services (loading, unloading)
- Customs, finance, insurance services
- Equipment for means of transport

V. SHIPPING

- Shipowners and vessel operators
- Cargo shipping
- Passenger shipping
- Ferry shipping
- Inland shipping
- Vessel supply
- Third party ship management services
- Fuels, greases and oils for marine and inland vessels
- Maritime port and towing services

VI. SAFETY AND SECURITY

- Port and shipping safety and security
- Equipment for port and shipping safety and security
- Water depth monitoring systems
- Radiolocation and optoelectronic systems
- Navigation safeguards
- SAR service equipment
- Advanced technologies for port and shipping safety

VII. ENVIRONMENT PROTECTION

- Modern solutions for vessel technology
- Eco fuel
- Innovative marine engines
- BWT systems (Ballast Water Treatment)
- Supplementary systems and services contributing to added value of a vessel

VIII. MEDIA, LAW, POLITICS

- Regulations and classification
- Classification societies
- Law and administration
- Maritime policy
- Maritime organizations
- Publishers and media
- Research & Development institutes
- Universities

BALTEXPO - 2015

BALTEXPO - EVENT PROFILE (2013)

5940 sq.m. of exhibition space (total)

246 exhibitors

2170 visitors

38 hours of conferences, debates and seminars

Special event: Polish-Norwegian Maritime Business Forum

MARKET FLASH - POLAND

- Poland's qualities as an investment location tend to be highly assessed by a number of reports published by the world's leading consulting firms. Recently published studies and reports indicate that Poland is considered one of the European leaders in terms of foreign investments.
- Polish Maritime Economy in 2013 & 2014 continued its' development as an important sector of national economy. Polish shipyards are involved in the national re-armament and Navy modernization programmes.
- Strategic programmes conducted by the polish seaports, aimed at complex improvement of their competitive strength by improving both the infrastructure and the services. As a consequence of deep structural modernization, Polish ports - which are within the core of European TEN-T network - have experienced significant growth in 2013, particularly visible in volume of operations in container terminals (over 1,65 mln TEU, which is more than volume of similar operations in ports of Sweden and Finland). This growth was possible particularly due to the improved intermodal transport of containers further inland, of which approx. 30-40% is by railway. The existing infrastructure still leaves place for improvement in this respect. Further development within the LNG management (transport, refueling, bunkering facilities) is also expected due to the planned launch of gas-terminal in Świnoujście.
- Apart from the planned and agreed (for about 2,2 GW) offshore wind power plants within Polish territorial waters, numerous Polish companies are involved in offshore activity, both as investors developing their activity also abroad and as suppliers and contractors for drilling rigs and offshore power plants. Some of the Polish shipyards developed their own designs of OSV's, including the specialized vessels for offshore wind power plants construction.

ORGANIZER & FURTHER INFORMATION:

Warsaw Exhibition Board S.A. is one of the major Polish independent organizers of business promotion events and activities in the international environment. We are proud of being part of international maritime society through BALTEXPO International Maritime Exhibition for over 30 years now. It is our mission, as BALTEXPO organizers, to develop exhibition to keep being up-to-date with current trends and development of this sector, and thus to support your business more effectively.

HOW TO SECURE YOUR PRESENCE AT BALTEXPO 2015:

Please, fill the attached form and send it to baltexpo@ztw.pl

We will contact you to discuss various available forms of your presence at BALTEXPO to secure that this presence will match your objectives and expectations towards this event.

Shall you have any questions, we will be happy to help:

Marek Witecki: (+48) 609 541 112; baltexpo@ztw.pl

Anna Szewczuk: (+48) 22 849 60 06 ex. 104; szewczuk@ztw.pl
