Citizen participation for port city governance
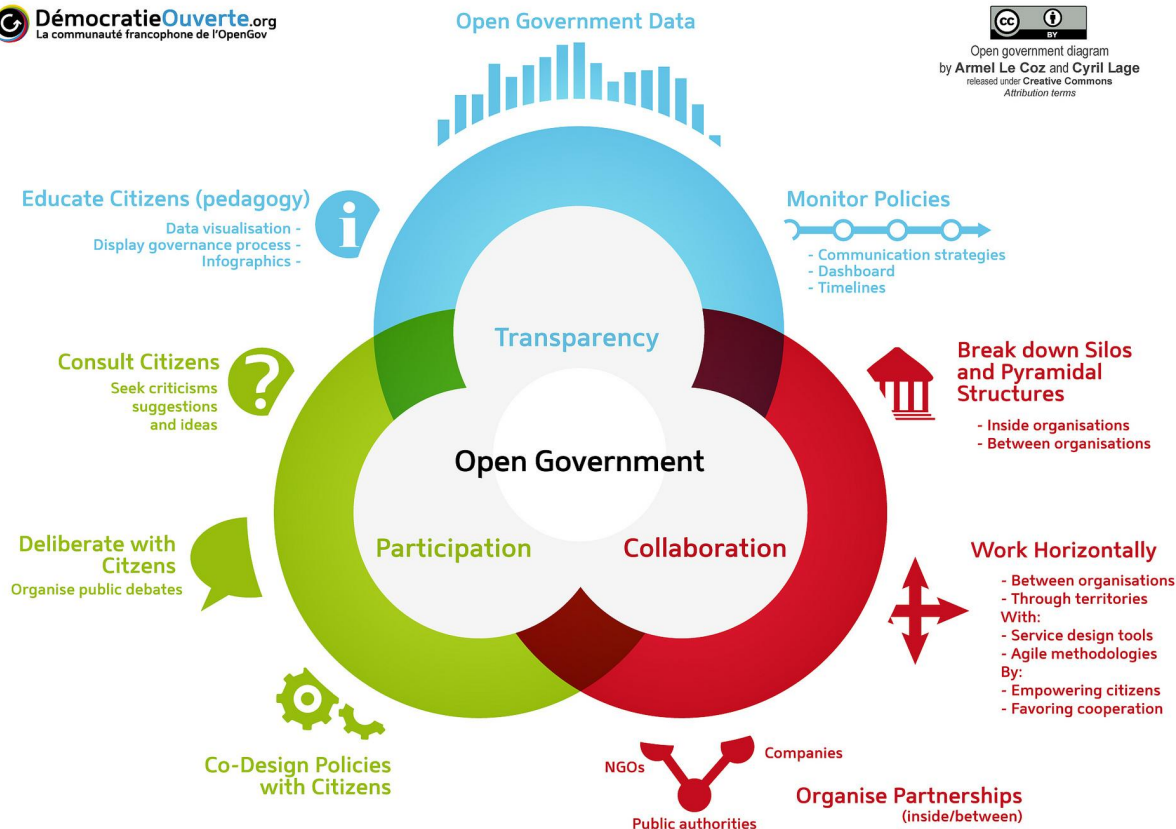

Cap Collectif

Our mission:

Make smarter decisions in the digital era

Key indicators

+ 160 clients
800 projects
25 employees
2,3M revenue

It's actually not all about participation...

The benefits of open governance and using collective intelligence

Performance	Support	Trust	Engagement
Smarter decisions, more efficient policies	Decisions supported by the community	Renewed & increased trust	Involved communities & reinforced shared identity

"**My Project for Earth**" (French government)

PLAN CLIMAT

Project: As part of France's Climate Plan, the government granted 3M€ nationwide to fund "green" citizen initiatives (areas covered: energy, circular economy, biodiversity)

CorSeaCare Mission | Great Alive Association
February 7, 2018

Mission CorSeaCare, scientific ecovolunteering on marine biodiversity | ...

With less than 1% of the surface of the oceans, the Mediterranean hosts more than 15% of the known marine biodiversity. But today it is [...]
